

## International Project Faculty Position Opening Department of Materials Science and Engineering, NTUST

**1. Position:** A faculty position of **International Project Professor** at all levels will be available starting from **February 1, 2019 or August 01, 2019**.

### 2. Desired Qualifications:

- (1) Candidates should hold non-Taiwanese citizenship. Preference will be given to candidates from Central Europe, Eastern Europe, and Russia, but candidates from other countries are also welcome to apply.
- (2) Candidates should have a **doctoral degree** awarded by a university listed on the Reference List of Foreign Universities (or the List of Recognized Universities in Mainland China, Hong Kong and Macau) published by the Ministry of Education, Taiwan.
- (3) The recruitment of foreign faculty includes the positions of project professor, project associate professor and project assistant professor. Postdoctoral researchers are not included.
- (4) Conduct research and teaching responsibility in **Materials Science related fields**.
- (5) At least one year (after obtaining Ph. D. degree) working experience in related fields.
- (6) Ability to teach core courses at undergraduate and graduate levels **in English**.

### 3. Application Documents:

- (1) Applicants should fill in the application form. The application form is available through e-mail request. (File sent to: [mse@mail.ntust.edu.tw](mailto:mse@mail.ntust.edu.tw))
- (2) Applicant's C. V. with a copy of Ph.D. degree certificate (For those holding the foreign degree(s), the applicant should obtain the official verification for his/her degree certificate from the relevant ROC (Taiwan) embassy or the foreign authority by ROC (Taiwan) Ministry of Foreign Affairs, such as Taipei Economic and Cultural Representative Office (TECRO), Taipei Economic and Cultural Office (TECO), and Taipei Representative Office.
- (3) Publication List (including one representative publication). The applicant's contribution in each publication should be specified.
- (4) Two recommendation letters.
- (5) Future plan in research and teaching (such as, X-ray Diffraction and Crystallography, Solid Diffusion, Thermodynamics in Materials).
- (6) Other documents that might facilitate the application.

**4. The position starts from February 01, 2019 or August 01, 2019.**

**5. Application Deadline: November 30, 2018.** After receiving your application materials, we will inform you by e-mail.

### 6. Mailing Recipient:

**Chairman Prof. Yee-Wen Yen.** (Please indicate "**International Project faculty application**" on the envelope). Address : Department of Materials Science and Engineering, National Taiwan University of Science and Technology, No. 43, Sec 4, Keelung Road, Taipei 10607, Taiwan

### 7. Contact Person:

Chairman Yee-Wen Yen., Tel: +886-2-27376516, E-mail: [mse@mail.ntust.edu.tw](mailto:mse@mail.ntust.edu.tw).

## 8. Remuneration and Benefits

- (1) The remuneration will be based on the provisions of the same salary standards as used for regular full-time faculty members of Taiwan Tech, **starting at NT\$ 71,810 per month**. In addition, a monthly housing stipend of NT\$6,000 will be issued.
- (2) During the contract period, each year the faculty member will be entitled to several fringe benefits, among them a subsidized economy-class round-trip airfare between Taiwan and the project faculty member's country of residence.

## 9. Rights and Responsibilities

- (1) The initial contract period is to be one year and each continuing contract period is to be two years.
- (2) Project faculty should teach at **least one course** every semester during the contract period.
- (3) During the contract period, project faculty should not hold other part-time jobs or positions apart from their teaching and research work at Taiwan Tech. However, project faculty are allowed to teach off-campus up to four hours per week if written approval is given by Taiwan Tech.
- (4) The leave of absence regulations for project faculty are the same as for regular full-time faculty. However, project faculty are not entitled to apply for extension of sick leave.
- (5) During the contract period, the performance of project faculty will be evaluated in the same way as regular full-time faculty.
- (6) During the contract period, project faculty who are qualified to participate in the Labor Insurance and the National Health Insurance programs should enroll in both programs. For those who do not meet the qualifications for Labor Insurance or NHI, Taiwan Tech may assist in obtaining Parts 1–5 of the “General Insurance for International Technological Cooperation Personnel.” Taiwan Tech will subsidize 65% of the insurance fee, the project faculty member will have to pay for the remaining 35%.
- (7) Pension Contribution during the Contract Period  
12% of the faculty member's monthly remuneration will be set aside as their Pension Contribution during the contract period. 50% of the pension contribution will be deducted from the faculty member's monthly remuneration as his or her Voluntary Pension Contribution, and the other 50% will be funded by Taiwan Tech as its Mandatory Pension Contribution. Taiwan Tech will open a special account at a financial institution for interest and account management.
- (8) The contract will be terminated upon the expiration date. The project faculty member should abide by all the regulations of Taiwan Tech during their period of employment. Taiwan Tech may dissolve the contract at any time if the project faculty member fails to perform his/her duties or violates relevant regulations.
- (9) During the contract period, the project faculty member should not resign before the semester ends. If he or she has to resign for any reason, a resignation application should be submitted three months before the last day of work. The project teacher shall not leave his or her position until Taiwan Tech has approved the resignation and the faculty member has completed the resignation process.
